## PROJECTS

**College Event Management System** ⬀
*GitHub Repo*
Built a complete platform to manage college events, student registrations, and admin oversight.
Features include event creation, user authentication, and backend control panel.
Completed two weeks ahead of schedule.

**Sneaker Website Landing Page** ⬀
*Live Demo*
Responsive e-commerce landing page using HTML, CSS, and JavaScript.

**Spanish Learning Web Application** ⬀
*Live Demo*
Interactive web app featuring registration, login, and gamified Spanish lessons.

**Simple Chat Box – Kafka Bot** ⬀
*Live Demo*
A philosophical chatbot themed on Franz Kafka using JavaScript and basic AI logic.

**Streaming Service Landing Page** ⬀
*Live Demo*
Designed a landing page for a fictional movie streaming service using HTML, CSS, and JavaScript.

**Weather App** ⬀
*Live Demo*
Weather App to tell weather condition of a specific location and forecast the weather for next 5 days. Made by using HTML, CSS, JavaScript and API integration.

## KEY ACHIEVEMENTS

**Improved web development efficiency by 30% during internship.**

**Deployed 20+ events successfully via college event management system.**

**Achieved 95% satisfaction rate in student feedback.**

**Completed internship project two weeks before the deadline.**
